Thanks, Tom.

Just reattaching here the revised leukemia draft (I sent it to you yesterday, but it might have been lost in the shuffle), in case you have a few minutes to look it over. I know that Barbara is going to edit the human mechanistic write-up a bit, but otherwise David gave it the go-ahead to send along to Tina.

I had a few comments and I need to check one thing in the main text.

Is the working copy still in "Barbara and Andrew" "Current version"?

Tom

Hi Barbara and Tom,

I think this is great. I had a few consistency thoughts on the epi cancer stuff, but otherwise didn't have anything substantive there.

Hello Andrew and Tom

Attached is the draft fact sheet for NPC. It contains a table similar to the one Andrew developed for ML.
